DETAILED ACTION

Examiner's Statement of Reason for Allowance

The following is an Examiner's statement of reasons for the indication of allowable subject matter: Claims 1,5,7,8,12,13,15,18,21,22,23,25,26,27,28,29, and 31 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts.

Claims 5,8,12,15,18,22,23,25,28, and 29 are allowable for reasons indicated in the previous office action.

The reason for allowance for claim 1, 7, 13, 21, 26, and 27 is the communication terminal does not transmit a separate access preamble for accessing a base station in addition to a preamble contained within a data packet in conjunction with the rest of the limitation set forth in the claim.

The reason for allowance for claim 31 is wherein the controlling channel supervising unit judges that a base station failed to receive transmitted data, if a channel occupying signal of the controlling signal communicated by the base station is detected at both a point of time when the transmission of the packet is complete and when a propagation delay time between the communication terminal and the base station has expired after the packet transmission is complete in conjunction with the rest of the limitation set forth in the claim.

The remaining claims, not specifically mentioned, are allowed because they are dependent upon one of the claim mentioned above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
